## LABOR DARK CLOUDS ON HORIZON.

Labor Unions Menacing the Nation's Welfare.

State of War Prevails in Two Most Important Industries.

Twenty Thousand Textile Workers Out—United Railroads Reject Demands.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, March 30.—[Exclusive Dispatch.] With the approach of May Day, when differences between capital and labor are usually brought to a climax, there are serious clouds on the horizon. Chief of these is the threat of a general strike against the American Bridge Company by the International Association of Bridge and Structural Iron and Steel Workers of America. Twenty thousand employees of the textile mills of Lowell, Mass., have inaugurated what may be a long and bitter struggle with their employers, and the feeling of unrest throughout the textile district may result in 100,000 employees in other mills following Lowell's lead. The American Bridge Company officials absolutely refused today to discuss the strike with President Buchanan of the structural iron workers, and that official now talks of a strike which will involve 200,000 men.

There are 500 iron workers out in various cities of the country, 600 of them in New York. President Orr of the Rapid Transit Board today met with Buchanan to raise the strike on the subway power-house. Buchanan refused, saying that his interest in his men was greater than in the city's needs.

A strike of 10,000 house workers is threatened in Westchester county and in Fairfield county, Ct. In nearly every city of New Jersey and Connecticut workmen have made demands for four hours and better pay.

The New Haven Railroad Company has asked its men to be patient until their demands shall have been fully considered.

Wall street is giving close attention to strike developments in the labor field. Great uneasiness is felt. Many of the most important interests in the financial world are decidedly of the opinion that the limit has been reached in meeting the demands of workingmen for increase in wages, and that active capital can stand no more. One of the great leaders of the stock market made this comment today:

"I am a bull on the country, but not so blind that I cannot see we are running into danger. Railroads have gone equipment mad. They are expanding their lines in steel and marine steel rails, and every form of improvement and competition wildly for the privilege of paying the highest prices possible for what they buy."

"And now, to add to the discomforts of the situation, workingmen everywhere, with singular shortsightedness, are insisting upon fresh concessions in the matter of wages and hours. They are hurting themselves even more than they make in that direction at this time. Capital is extremely nervous, at best, on account of the great decline in values which has taken place. It is already running away from stocks that are especially susceptible to strike influence."

STRIKERS LOSING GROUND.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA (Wash.) March 30.—It begins to look as if the strike was nearing its end. Several desertions from the ranks of the strikers occurred today, and were put back to work for the Tacoma Railway and Power Company.

"When it is discovered that securities cannot be sold without a foolish sacrifice, owners of property will turn and fight as a matter of self-preservation. If labor leaders are wise, they will cast the weight of their united influence against the continuance of agitation among their followers."

LONGSHOREMEN'S TRUST.

(BY DIRECT WIRE TO THE TIMES.)

STOCKTON, March 30.—[Exclusive Dispatch.] Today the Longshoremen's Union forced the Union Transportation Company to cease transferring freight to the steamer Columbia to cars, which were switched onto the latter front, as the union men claimed that work should be done by stevedores.

It has long been the custom here to transfer freight of all kinds from the cars to river steamers, or vice versa, but the union took the master up and notified all of the transportation companies and owners of small barges and launches that hereafter regular deck hands would not be allowed to move freight further than thirty feet from water, or what was supposed to be the width of the wharf.

All the companies and firms, with the exception of the Union Transportation Company, obeyed the ruling, and President Gillis, who was out of the city at the time the men were stopped, says he will continue to do this branch of his business or tie up his steamers.

He developed the transfer system, and as the cars are only about forty feet from the boat, he intends to make a further effort to carry out his policy.

The secretary of the Longshoremen's Union stated this afternoon that all of the companies and firms would be treated alike, but they must not compel deck hands to do work to which stevedores were entitled, or there would be trouble.

LAWFLESS STRIKERS.

(BY DIRECT WIRE TO THE TIMES.)

REDDING, March 30.—[Exclusive Dispatch.] Today an open letter to Sheriff Richardson dealing with the strike situation at Keweenaw where, he says, "grave breaches of the peace, if not actual riot and bloodshed," are liable to occur.

The epistle continues: "You have but one duty to perform, and that is to strictly and impartially enforce the law, regardless of the merits or demerits of the controversy." The Sheriff is advised to get reliable deputies, and each of them should be instructed that he is to do nothing or to take no action which is calculated to distract public attention.

FIRM ACTION NECESSARY.

(BY ASSOCIATED PRESS—P.M.)

REDDING, March 30.—Dist.—Atto. Dozer today issued an open letter to Sheriff Richardson dealing with the strike situation at Keweenaw where, he says, "grave breaches of the peace, if not actual riot and bloodshed," are liable to occur.

The epistle continues: "You have but one duty to perform, and that is to strictly and impartially enforce the law, regardless of the merits or demerits of the controversy." The Sheriff is advised to get reliable deputies, and each of them should be instructed that he is to do nothing or to take no action which is calculated to distract public attention.

SYNTHETIC WITH STRIPPERS.

(BY ASSOCIATED PRESS—P.M.)

DENVER (Colo.) March 30.—A canvas of the vote taken among the ten thousand bitumens and miners of Indiana shows a comparatively large majority opposed to accepting the operators' ultimatum demanding that last year's agreement with an advance in wages varying from 12½ to 27 per cent. be accepted.

Sympathetic With Strippers.

REDDING, March 30.—Dist.—Atto. Dozer today issued an open letter to Sheriff Richardson dealing with the strike situation at Keweenaw where, he says, "grave breaches of the peace, if not actual riot and bloodshed," are liable to occur.

The epistle continues: "You have but one duty to perform, and that is to strictly and impartially enforce the law, regardless of the merits or demerits of the controversy." The Sheriff is advised to get reliable deputies, and each of them should be instructed that he is to do nothing or to take no action which is calculated to distract public attention.

REDDING, March 30.—Dist.—Atto. Dozer today issued an open letter to Sheriff Richardson dealing with the strike situation at Keweenaw where, he says, "grave breaches of the peace, if not actual riot and bloodshed," are liable to occur.

The epistle continues: "You have but one duty to perform, and that is to strictly and impartially enforce the law, regardless of the merits or demerits of the controversy." The Sheriff is advised to get reliable deputies, and each of them should

GEN. WOOD'S PROSPECTS  
IN THE PHILIPPINES.WILL BE MADE CIVIL GOVERNOR  
ON HIS ARRIVAL THERE.

Warrant Signed for Three Million Dollars to Cover Appropriation for Relief of Distress—Charges Against Lieut.-Col. Howse—Silver Purchased for Coinage.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, March 30.—[Exclusive Dispatch] Gen. Leonard Wood will be made Civil Governor of the Philippine Islands after his arrival there, about three months from now. This statement was made today by an official perfectly competent to speak about the plans that the administration has in view. Gen. Wood himself does not know that he will be placed in charge so soon, for the plan for giving him early charge has been made largely since he sailed for Europe on his way to the Philippines.

It appears now that Gov. Taft is anxious to come home. On his last visit in Washington, he insisted that it was his duty to return to the islands and finish his work there, but since his arrival in Manila, his health has been so poor that he has become convinced that he will be obliged to quit as soon as a somebody has been appointed to succeed him and return to the United States. This feeling on the part of Gov. Taft is now fully understood at the War Department, and Gen. Wood will be assigned to the place on account of the great record he made in Cuba.

## MILLIONS FOR DISTRESS.

(BY THE ASSOCIATED PRESS—A.M.) WASHINGTON, March 30.—The Secretary of the Treasury today signed a warrant for \$3,000,000 in favor of the United States Guaranty Trust Company of New York, for account of the treasurer of the Philippine Islands, to cover the appropriation for that amount made at the last session of Congress for the relief of distress in the Philippine Islands.

## CHASES AGAINST HOWSE.

(BY THE ASSOCIATED PRESS—A.M.) WASHINGTON, March 30.—The War Department is investigating charges that have been filed against Lieut.-Col. Robert L. Howse, who was command of a post in Northern Luzon in 1899. The charge relates to the creation of a disturbance being made by Lieut.-Col. Howse, who was cognizant of the fact that two natives were whipped to death and that no punishment of the offenders were ordered. It is stated at the War Department that, so far as investigation appears, that the alleged outrage was perpetrated by native officers while Col. Howse was absent after his return.

The matter has been brought to the War Department, but a partial report made that an investigation at the time showed that only one native had died, and that his death was due to ill-treatment, but to disabilities. Reports of alleged outrages in the Philippines for which Col. Howse and some other officers are said to be responsible, form part of Gen. Miles' report of his recent investigation in the Philippines.

## SILVER FOR COINAGE.

(BY THE ASSOCIATED PRESS—A.M.) WASHINGTON, March 30.—The Secretary of the Treasury today purchased for account of Philippine coinage 250,000 ounces of silver at an average of 90 cents an ounce. The silver is to be delivered in equal parts to the mints in Philadelphia and San Francisco.

## FLASHES FROM THE WIRES.

James E. Pearl and his wife, he colored and she white, were killed at Quincy, Ill., by being struck by an electric car running at full speed yesterday.

According to dispatches from Peoria, the strike at the Crow's Nest Pass mines has not been settled, as was reported.

The body of the burglar who was shot and killed in the battle at Bedford, Ind., last Saturday morning, has been identified as that of Frank Adams of Toledo.

An earth shock of unprecedented severity was experienced at Jerusalem yesterday morning. The entire population was panic stricken, but the damage done was slight.

The opposition to the nomination of Archbishop Ireland for cardinal of the New York tribune, comes specifically from Cardinal O'Connell, the dean of the Sacred College.

Because he could not stop laughing William R. Kelly was transferred from ward to ward in Roosevelt hospital, New York. The doctors there being desirous over his case, he finally was sent to Bellevue.

Lieut. W. H. Henderson, U.S.N.

HYMELIA CREVASSÉ  
STEADILY WIDENING.

(BY THE ASSOCIATED PRESS—P.M.)

NEW ORLEANS, March 30.—The carrying away of additional cribbing at the Hymelia crevassé, which this morning brought the forces that have been at work there to the verge of abandonment, of the attempt to close the break. The levee board today let it be known that it was at the end of its resources, and that unless the planters and railroads could assure subscriptions amounting to \$50,000 it would be compelled to throw up its hands. Doubtless double that amount will be required to complete the job. By evening it was said the break was close to 700 feet wide, with the ends still steadily melting away.

The Texas and Pacific Railway is necessarily involved, with water running deep over the tracks, and with little hope of an early resumption of traffic if the crevassé is permitted to run until low water comes. The company has suspended all traffic, and this has suspended all traffic over the Napoleonville branch of the Southern Pacific.

The river remained stationary today in front of this city, marking 24 at nightfall, and 25 yesterday, however, was 26 of a foot. An inspection of the local levees gives no cause for apprehension as to their safety.

MUD BOILS AT MAYERSVILLE.

(BY THE ASSOCIATED PRESS—P.M.) WICKSBURG (Miss.) March 30.—

who has been in charge of the dredging work in the harbor at Fall River, Mass., for the past three months, committed suicide Sunday night by inhaling illuminating gas.

The German Foreign Office here is fully satisfied with the explanations of Gen. Dewey made to President Roosevelt regarding the interview with the admiral, which appeared recently in a Newark (N. J.) paper.

A dispatch from Isaac Harbor, N. S., says that a cave-in has occurred in the extensive gold mines formerly known as the New England mine. All the underground workings have collapsed, entailing a loss of \$50,000.

A company of fifteen which played "The Younger Brothers, Bank Robbers," before a crowded house at Council Bluffs, Iowa, Saturday night, was arrested at the close of the performance for violation of the Sunday law.

Dr. Richard C. Flower, of New York, yesterday pleaded not guilty to five indictments charging him with grand larceny but reserved the privilege of withdrawing that plea on April 7, and making any motion he chose.

Meager news has reached Lewisville, Ark., of a lynching which took place in the country three days ago at Bradley, near the Louisiana line. Frank L. Robertson, the negro lynched, was charged with arson. He had confessed.

A double-headed freight train crashed in the caboose of another freight on the Erie in a cut near Ashland, Ohio, early yesterday, derailing three cars and killing C. Bell and W. H. Jones of Oldfield, Illinois. Evans and Alfred Weiss, engineers of the rear train, were hurt, but not seriously.

Arthur Wellhausen, a 15-year-old lad of Marine City, Mich., went to his room yesterday morning after an exciting argument with his parents. A shot was heard soon after he went up and the boy was found dead on his bed with a bullet through his brain.

An Erie passenger train, consisting of a combination baggage and cafe car, two Pullman sleepers, a parlor car, and a coach, derailed on an embankment near Cerry, Pa., yesterday. Spreading rails caused the accident. C. B. Hennessy, en route from New York to Cleveland, suffered a number of sprains.

Allan Cameron, general agent of the Pacific and Asiatic Steamship Company ("Harbinian Property") in the Orient, arrived at Portland, Or., from Hongkong yesterday. Cameron was in conference with President Mohler of the Oregon Railroad and Navigation Company regarding oriental trade. In the Orient, he should go to China.

Mr. Peppier Finds William Dobson in His House and is Killed by Him.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, March 30.—Filled with jealous anger at finding another man being entertained by his wife this afternoon, William J. Peppier of East One Hundred and Nineteenth street threw the visitor out into the hall, roughed him from the chin to the front door of the apartment house in which he lived with his wife screaming and weeping at their heels, and was there shot dead by the man he thought had wronged him. This man was William Dobson, cashier in a stock broker's office. Peppier was about 28 years of age, and a clerk. He had not been married long. Peppier had been shot in the side, the bullet passing through the body.

Dobson was arrested tonight in the apartment of friends. He took his arms very firmly, and refused to be interviewed. At the Police Station he said he had a wife and two children in Washington, D. C. He was locked up.

## FIGHT IN SANTO DOMINGO.

CAPE HAYTIAN (Hayti) March 30.—A serious engagement took place Saturday between the Dominican government troops and the revolutionary forces at Juan Calvo. The losses on the government side were twenty-seven killed and forty-three wounded, while the revolutionaries lost five killed and eleven wounded. The telegraph line is interrupted beyond Cotol. It is rumored here that the government troops have surrounded the capital, Santo Domingo, and that a battle is imminent.

Wintered in California.

Hom. Mr. and Mrs. David Syme of Sycamore, Ill., parents of Mrs. John Fulmer, who have been wintering in Los Angeles, California, will return East today. They have spent the last week at Brighton Beach Hotel, where they gave a charming little dinner. Sunday, the guests including Maj. and Mrs. Fulmer, Mr. and Mrs. Walter Johnson, Mr. and Mrs. George Johnson.

Mr. and Mrs. Wren were the hosts at a musical given Friday evening at the home of Mrs. Graham on Ingraham street, where Mr. and Mrs. Wren were honored guests. The numbers were rendered by the prettiest voices of Mrs. Wren, Miss Grace Syme, Mrs. Burns and Edward Shank, and James Burns; Miss Lucille Roberts at the piano. Erville Alderson favored the company with Shakespeare readings. There were about thirty present.

Jolly Carom Club.

The Jolly Carom Club was entertained Friday evening at the home of Miss Myra and Elma Hatton, No. 419 Avenue 23, and an enjoyable evening was spent. The first prize was won by Mr. and Mrs. Johnson. Dainty refreshments were served on the card-tables. The decorations consisted of fregias, lilacs and roses. The club organized a few weeks ago, with the following sixteen members: Mr. and Mrs. W. A. Street, Mr. and Mrs. George B. Johnson, Mr. and Mrs. K. Fritsch, Mr. and Mrs. T. G. Farmer, Misses Effie Ball, Myra Hatton, Elma Hatton, Lina Shirley; Messrs. Ball, Carlson, Schreiber and Smith.

Cards and Spanish Dinner.

The Las Habadoras Club held the last meeting at the residence of Mrs. S. E. Wickham, 1120 North Main street, San Joaquin Valley, where exceptional opportunities are afforded by reason of the recent completion of the two greatest public irrigation systems in the West.

Mr. and Mrs. Morrow were honored as the premier when county of the State, thanks to her fertile soil and kindly climate. With an abundance of water for irrigation available, opportunities in dairying, stock raising and poultry raising are remarkably profitable.

With limited means, a family can quickly build up a home.

With care taken, grapes will receive much attention, these products are now in sharp demand at high prices. The citrus and all deciduous fruits and nuts are profitably raised.

The Spanish dinner was quite extensively under the advice and direction of George C. Roeding of Fresno, who has given us the genuine Spanish art of cooking in an industry that promises to rank with California's most extensive and profitable.

SPORTING RECORD.  
TERRY DOWN  
TO WEIGHT.McGovern Says He Has Been  
Awaiting Tonight's Fight."Young Corbett" Confident That  
He Can Surely Win.England Wins Chess Match—Big  
Handicap Race at Memphis.  
Luncheon in Stable.

[BY DIRECT WIRE TO THE TIMES]

SAN FRANCISCO, March 30.—[Exclusive Dispatch.] The near approach of the fight for the feather-weight championship and the selection of a referee have combined to stimulate interest in the contest tomorrow night at Mechanics' Pavilion between Terry McGovern and "Young Corbett." Eddie Granez is a satisfactory referee and the arrangement by which the referee selected by the audience will pass on the merits of a claim of foul precludes the chance of the kind of fake that is becoming too common. Applications for seats show that the audience will be even greater than that which witnessed the contest between Jeffries and Fitzsimmons. Special cars full of sports are coming from Salt Lake, Reno, Seattle, Portland and other places.

Betting is still slow, but by tomorrow it is expected that a large amount will be put up, when all doubt in regard to Corbett's making weight is settled. Corbett was down to 129 this morning, and he is expected today by hard road will take off two more pounds. He did not weigh tonight because it is still tomorrow morning. He has cut out all drinking of water and this ought to help him, but many think he will have to work up to 12 o'clock to be sure of weighing in right. He is in splendid trim, strong as an ox, and if he does not have to reduce tomorrow he ought to go into the ring in ideal shape.

McGovern is also in splendid form. He is two pounds under weight and hard as nails. He said today: "I have been waiting for tomorrow night's battle ever since I left Boston over a year ago. I declared then and repeat now that the blow that put me down was a fuke. I shall prove the truth of my assertion in the fight I put up tomorrow night. I have trained carefully and am in splendid fettle for the fray."

Corbett had this to say: "I am now trained to the hour and in perfect condition for the fight. The battle will be a stubborn one, but I believe I shall certainly win. I do not think he has developed any new blows and am ready to hold him more than even at his old style."

GRANET GETTING IT STRAIGHT. [BY THE ASSOCIATED PRESS—P.M.] SAN FRANCISCO, March 30.—Adelaide Granez, who will referee the "Young Corbett"—McGovern fight tomorrow night, visited both training quarters today. He wished to get an exact interpretation from the two principals of the agreement which Corbett and McGovern's managers signed last night. As the agreement reads, in case a foul is claimed by either side, the decision of the referee must be withheld until after a reputable physician has made an examination and reported what injury, if any, has been inflicted.

Granez wants to have the full meaning of the agreement explained to all parties. It must be known whether the examination is to be made at the ringside, and who will make it. In fact, all the circumstances surrounding such an event must be clearly laid down.

When asked about the matter, Granez admitted that much of the purpose of his visit to the two managers "think it is only just to myself and to the two fighters," he said, "that there should be left no possible ground for a misunderstanding. This is the reason I am going to call on the managers, and have no doubt but that everything will be perfectly satisfactory, however."

The agreement has been discussed rather widely by the sporting fraternity, and varied in its possible effect. It is granted that either good or bad use could be made of such an understanding, but the fact that Granez has called for a complete interpretation satisfies sportsmen generally, and the sense of the agreement can come about.

At noon today the betting odds on the fight remained at 10 to 8. McGovern, as has been the case right along, is the long end of the argument. He is "a real underdog," and is taking life rather easy in Alameda. This morning he did no work worth mentioning. He spent most of the time lying around headquarters, chatting with his trainers and guests. The manager was from time to time by the receipt of letters and telegrams from eastern friends. He took a little recreation road work this afternoon.

The claim is made for Granez Corbett tonight that he has at last reached the limit of 127 pounds. He had a hard day yesterday, and though it was raining heavily, took a six-mile tramp in the face of a fierce wind. He was not in the least fatigued, so he did not suffer from the exposure. Today he was abroad early for active exercise. His trainers "romped him in prime form, and say that a warming-up exercise and a rub down tomorrow morning will wind up his work."

"Has Had No Challenge." STEAMER RATE FOR ST. LOUIS. [BY THE ASSOCIATED PRESS—P.M.] NEW YORK, March 30.—Mark Twain has recalled the days when he was a pilot on the Mississippi River in a letter to Ex-Gov. David R. Francis, President of the St. Louis Exposition, in response to Sir Thomas Lipton's suggestion that a series of old-time steamboat races be inaugurated as a feature of the exposition.

Mark Twain wants a genuine reproduction of old-time races, with two roustabouts and singers; the use of the torch basket rather than the searchlight, and the extinguishment of the latter-day government lights, so that the skill of the piloting would count when the boats are evenly matched in speed.

"As a spectacle," writes Mark Twain, "nothing should add to it except an orange blow-up as the boats finished the home-stretch. But this should not be arranged; it is better left to Providence."

## BITS OF WISDOM

About the Healing of Helps and  
the Helping of Helps.

In the walks through life there are lots of pleasant things for those who have pleasant feet.

Nature calluses a cushion on the heel of the foot—and new rubber on the heel of the shoe helps nature.

A good way to repair a bad road is to repair the heels of the shoes with new rubber.

After all, the most the minister can do for us with his preaching is to sweeten our dispositions—and your dealer can do that with rubber heels.

O'Sullivan's rubber heels cost 85¢ a pair; plus price of attaching—so inferior substitutes.

Dickey's Creme de Lis

Presents Franklin Burnham and Son, San Francisco, B. R. HARRINGTON &amp; CO., Los Angeles, Cal.

USE California Cream of Lemon  
INSTEAD OF SOAP.Society of Men of Letters. In the Bus-  
lewood, where the election of offi-  
cers for the coming year was about to  
be held, a stoutly-dressed young  
woman whose name was afterward  
given as Mlle. Emma Touret, alighted  
from a carriage and fired two shots  
from a revolver at the men who  
had called her by name. Both shot  
missed, and the woman was about to  
fire a third time when M. Prevost dis-  
armed her.She was taken temporarily into cus-  
tody, and it was explained that she had  
been M. Prevost in London a few  
months ago.M. Prevost's avoidance of her since  
that time had prompted her to seek to  
avenge herself, but she did not intend to  
kill the novelist.

M. Prevost was set at liberty.

M. Prevost was elected presi-  
dent of the Society of Men of Letters at  
the election which followed the  
shooting affair.

Return to Work.

BUFFALO (N. Y.) March 30.—About

960 men employed at the Buffalo Dry

dock Company, who have been on

strike for several days, returned to

work today. The men had not been

settled, but the men have agreed to

return while the troubles are being ad-  
justed by an arbitration committee.

## TheCrazyBasin

The brokers who are recommending you to send  
for the booklet on Crazy Basin, with a view to in-  
teresting you in the purchase of Crazy Basin Min-  
ing stock, are not of the fly-by-night order. They  
are here to stay, and have been in business for  
several years past, right in Los Angeles. They  
are the Crazy Basin stockholders, and the stockholders  
of the company. They are the ones who have  
the right to speak for the stock.B. R. Dickinson, 615 N. Broadway.

March 22. The fall was easy, as government troops mutinied and Major De Plaza, the second officer, Commandant Vallaradi of the Cortes division, was captured, with the money available, on board the *Tatumbia*, sailing to Balise. Vallaradi went ashore, leaving the ship aboard. No sooner had he left than his crew steered out to sea and made for pirate in unknown seas, without a flag or country. San Pedro was captured by the rebels on March 24. Mrs. Arias, wife of the president, is in a dying condition. She died the fall, and the board of United States officers Brutus. She was afterwards transferred to the Marietta, and died in Puerto Barrios, Guatemala, safety.

## BRUARY CIRCULATION OF THE TIMES.

OF CALIFORNIA, COUNTY OF LOS ANGELES, Assistant General Manager of the Los Angeles Times, does solemnly swear that the number of copies of this paper and issue of the *Los Angeles Times*, MARCH 29, 1903, given by the office records, was as follows:

**NINES AND MINING.**  
OCAL CAPITAL BUYS  
NUEVA ANACONDA MINE

DUCTIVE COPPER PROPERTY OF  
CHIHUAHUA, MEX., SOLD.

Bisons Finding Investment in Mex-  
's Mineral Camps—Better Opening  
Americans in Sister Republic Now  
Never, 'Tis Said.

Angeles capitalists are credited  
having acquired still another val-  
mining property in the State of  
Chihuahua, Mex. By a deal recently  
negotiated, a local syndicate  
which has obtained title to the Nueva  
Anconda copper mines near Urique  
mines adjoining the old Bahia  
mine, and the price is under-  
to have been \$75,000 gold.

Details of the transaction were  
left to the city by A. M. Knapp of  
Chihuahua. He stated yester-  
day that the mines are situated in  
the western part of the State of Chi-  
huahua and are regarded as very  
valuable.

They have been operated by  
Knapp, Mr. Miller, and Mr. Neff.

Mr. Knapp, who has received \$20,000 in  
as first payment for the property,  
is simply astonishing the amount  
of American capital, especially from  
Arizona, that is being invested in  
the propositions in Chihuahua.

Mr. Knapp, who is a syndicate  
man, said he has no objection to  
there being no limit to the mineral  
resources of the country, and apparent-  
ly to the capital that is will-  
ing to take up good proposals.

While in Chihuahua, the other  
two large syndicates were  
-that gone well in the in-  
-ment of expending large sums in  
-ment.

It is a better opening there for  
than there has ever been  
other element of the country wel-  
-ing numbers. The Stillwell is at  
one of the biggest operators

now opening a valuable property  
in the camp of Chihuahua, a well-known American

able to enumerate  
-ments that are be-  
-sive all of  
-tive, but it is safe  
-tunes will be  
-foreigners."

high-grade oil  
company the  
Find.

of Santa Bar-  
to furnish new  
the latest news  
of an important  
the Lompo Oil

depth of 1500 feet, is reported to be  
two miles of the Union company's well, the  
brought in the territory. It is  
the same strike, and one interest-  
nature in its favor is that oil was  
500 feet nearer the surface than

the Union.

Stockholders of the company are re-  
-ed. They expected to make a find,  
-surprised at the high gravity of  
the oil. The company owns 1000  
in the section, and will probably  
another well as soon as a land-  
is made in the new one. This  
ever, has not yet been decided

as wells have been begun by the  
one of them is going down  
from the latest find.

UMMERLAND'S PROBLEM.

ough the Crescent Oil Company  
unsuccessful in its attempt to  
a lower stratum of oil sand in  
summerland field, it is now prob-  
that another effort will be made

it.

months ago the company be-  
drilling on the Oregon ranch in  
of finding oil sand at or near  
that would increase the  
-iveness of that territory. After  
to a depth of several hundred  
an accident occurred that ruined  
the ranch. The company itself  
without funds it had about  
decided to give up the search.

I. H. Ackerman, who owns the  
ranch, has made the company  
offer that has been taken under  
consideration. He had agreed to  
5000 in cash and give a lease  
acres of his ranch to the com-  
if it will be well to consider  
first some general principles and to  
what might be the best way to  
the matter at issue. If stockholders of  
company will not accept this offer  
then make it to other operators  
that will be a good way to  
spend their cash in an attempt  
that, a longer and more pro-  
re oil stratum is to be found be-  
the first sands that are now nearly  
dry. It is estimated that it  
cost at least \$20,000 to send a  
a depth of 6000 feet.

LESSONS FROM NATURE.

First of all we see that in nature  
many thousands of years, the animal  
and its food have grown up side by

side.

OLDEST INHABITANT.

W. T. March 26.—Noah Rabby  
131 years old, on April 1. The  
customs of celebrating the birth-  
with a "party" will not be fol-  
for the aged man is very  
the excitement of such an event  
is fatal to him. Rabby  
at Eastpoint, N. C., on April  
2. He lived in Piscataway town-  
near New Brunswick, N. J., for  
-years, and for the last fifty  
has been an inmate of the poor-  
of Middlesex county, New Jersey.

**SUPPLIES FOR FIRMS.**

STLAND (Mo.) March 26.—The  
Dempter steamship Yola will  
tomorrow for Hango, Finland,  
a cargo consisting of 163,522  
of oats, 10,000 bushels of rye  
15 bushels of barley and 100  
of flour contributed for the famine-  
in Finlanders. This is the third  
of the kind, each of which  
from Canada.

**AUCTION.**

Directed by Mrs. Berchman to dispose  
of furniture of a six-room cottage  
Price Street, Thurmont, April 2 at  
10 a.m. The furniture includes  
curtains and portieres, oak and  
crammed dressers, ironings, brass  
and glassware, cigar, sewing machine,  
and cooking utensils; also one  
cabinet, one chair, and one  
table. The above goods are same as  
C. M. STEVENS,  
Auctioneer.

## Should We Eat Meat or Not?

NOT ESSENTIAL TO VIGOR.

DR. LATSON, HIMSELF A MEAT EATER,  
DECLARIES FLESH FOOD UNNECESSARY.  
MAN CLASSED WITH ANIMALS WHICH  
SUBSIST UPON FRUITS, NUTS AND  
GREEN LEAVES.

By W. R. C. Latson, M.D.

Editor Health Culture Magazine, New York.

"EAT meat or not to eat meat?" This is generally considered the most important question of dietetics. Whether or not the most often mentioned, the local syndicate, the experts, which are not to be made out, has obtained the best results, few people are innocent of an opinion. There is perhaps no other question of hygiene regarding which there has been so much controversy, so much dogmatism and so much misconception. And it may be remarked that there are few questions upon which there is so general and so striking a supply of misinformation.

DEFECTIVE REASONING.

One man remarks that he has canine teeth. The wolf is a meat eater. So, therefore, must be the man. Have they not both canine teeth? But this reasoning forgets (or has he even known?) that the chimpanzee, a frugivorous tree ape, living on fruits, nuts and fresh green leaves, has canine teeth larger than man's? Another student asks, "What is the animal and the food of the animal?"

Now, when we come to the herbivorous animals—the cow, sheep, goat and others—we see at once that, although some like the deer are adapted to grazing, others cannot be predators or offensive, because they lack both the physical vitality and the organs necessary. They cannot clutch or hold quarry, neither could they, with their claws, do much harm to their food.

When we come to the frugivorous, or fruit-eating animals, we find an equally striking and beautiful adaptation between the anatomical structure of the animal and the food of the animal.

The "improvement societies,"

sectional organizations which have sprung up in every part of Los Angeles during the last three years, are about to do something which will probably have a great bearing on this city's future welfare.

They are about to amalgamate. What one of them alone could not begin to do, what even several of them would probably fail in, their complete union will probably effect. A single society is organized by the City Council, or a gas company or a street-railway company as a small bunch. All of them together will be respected as the "voice of the people."

In the organization which will soon be completed, the Garvanza, Highland Park, Highland and Vernon Improvement Associations will be the leading constituents. A committee from all of these was appointed some time ago to take steps leading to the formation of a local one, and they are now about ready to report. The general members are F. G. Ganahl, Adolph Ranisch, Carl G. Packard, W. Frank Poor, Sanford C. Wing, Melville Mudge, S. H. McClung and G. W. Schmidt.

One of these associations during

their short lifetime has been of

considerable advantage to the city, but

so quietly and non-assertively that it

has been done that few people have really

realized the power and the throne

in long-needed improvements which have sprung into existence.

In the past year important conces-

sions from the street-car people, whole

blocks of new houses and water

and many dollars' worth of street

improvements owe their being directly

to these societies. Their ranks number

the city's most prominent men in the

city—indeed, their active working

force is composed almost wholly of

persons more or less in the public

game, as for some reasons the conserva-

tive minded individuals who the whole

town go to ruin rather than rise from his

eloquent lethargy and protest.

A new phase of the joint union will

be its probable political status, not in

as a political and conversa-

tion, but in a determined

effort to keep municipal purity.

Many members of these various

bodies are enthusiastic in their praise

of the new scheme. The plan of action

is to be for the formation of a gen-

eral Executive Committee, be-

ing a whole, which will then confer with the

Council or whatever other men or body

of men it is desired to reach. Many

members of these various bodies

are enthusiastic in their praise

of the new scheme. The plan of action

TO EAT meat or not to eat meat?"

This is generally considered the  
most important question of dietetics. Whether or not the most im-  
portant. In the issue between the "meat eaters" and the "vegetari-  
ans" few people are innocent of an  
opinion. There is perhaps no other  
question of hygiene regarding which  
there has been so much controversy,  
so much discussion and so much mis-  
conception.And it may be remarked that there are few questions upon  
which there is so general and so striking  
a supply of misinformation.

## DEFECTIVE REASONING.

One man remarks that he has canine  
teeth. The wolf also has canine teeth.  
Therefore, it must be the man. Have they not  
both canine teeth? But this reasoner  
(or has he ever known?) that  
the chimpanzee, a frugivorous tree  
ape, living on fruits, nuts and fresh  
green leaves, has canine teeth larger  
than man's? Another student asks,  
in ingenuous surprise, what the ani-  
mals are.There is a better opening there for  
a discussion than there has ever been  
in either section of the country, among  
the outsiders. The Stillwell is at  
present one of the biggest operators,  
now opening a valuable property  
in the Teresian camp in Chihuahua.  
It has a promising proposition  
in the well-known Americanwould be impossible to enumerate  
numerous propositions that are be-  
ing launched. Of course not all of  
them will be successful, but it is safe  
to predict that vast fortunes will be  
made by those who are successful.

POC OIL STRIKE.

Another Producer of High-grade Oil  
Bought In—Lompoc Company the  
First to Make the Lucky Find.The Lompoc oil field of Santa Bar-  
bara county continues to furnish new  
areas of interest. The latest news  
that section tells of an important  
find made by the Lompoc Oil  
Company, which is reported to have  
brought in a good flow of high-gravity oil  
at a depth of 1500 feet.A new well is situated two miles  
from the Union company's well, the  
brought in the territory. It is  
a good oil strike, and one interest-  
ing feature in its favor is that oil was  
found in the surface.The oil is 500 feet nearer the surface than  
the Union, and the shareholders of the company are not  
surprised. They expected to make a find,  
surprised at the high gravity of the oil.The company owns 1000  
acres in the section, and will probably  
make another as soon as a land  
is made in the new one. This  
ever, has not yet been decided.A new well is being dug down  
from the latest find.

SUMMERTIME'S PROBLEM.

Though the Crescent Oil Company  
was unsuccessful in its attempt to  
find a lower stratum of oil sand in  
the Summerland field, it is now prob-  
ably that another effort will be made.Several months ago the company began  
drilling on the Oregon ranch in  
the search for oil sand at or near  
the surface, that would increase the  
effectiveness of that territory. After  
a depth of several hundred feet, an accident occurred which stopped  
the work. As the company's treasury  
was not large, and it was about  
decided to give up the search, Mr.  
L. H. Ackerman, who owns the  
Oregon ranch, has made the company  
offer that has been taken under  
consideration. He has agreed to sub-  
mit \$5000 to the cost of the search, and  
to put his ranch to the company if it  
will put a hole down to a  
depth of 2000 feet. If stockholders of  
the company will not accept this offer  
they will then make it to other operators  
in the Summerland field that are willing  
to spend the money. It is believed  
that a lower and more prof-  
itable stratum is to be found be-  
neath the first sand that are now nearly  
dry. It is estimated that it cost at least \$20,000 to send a  
drill to a depth of 2000 feet.

OLDEST INHABITANT.

NEW YORK, March 29.—Noah Raby  
is 131 years old on April 1. The  
custom of celebrating the birth  
of a "party" will not be forgotten,  
for the aged man is very weak  
and unable to be fatigued. He  
was born at Easton, Pa., on April  
2. He lived in Piscataway town-  
near New Brunswick, N. J., for  
five years, and for the last fifty  
has been an inmate of the poor-  
house of Middlesex county, New Jersey.

SUPPLIES FOR FINNS.

ST. LOUIS (Mo.) March 29.—The  
Dempster steamship Yola will  
arrive from Helsinki, Finland,  
a cargo consisting of 163,822  
bushels of oats, 165,000 bushels of rye,  
1000 barrels of flour, 1000  
bushels of barley and a large  
quantity of clothing, money and other  
supplies for the famine-  
stricken Finns. This is the third  
vessel of the kind, each of which  
comes from Canada.

## MUSH KETTLE BOILED DOWN.

Library Board Will Give Final Stir  
Tonight—Period of Texas Nervous  
Strain Nearing an End.The simmering "mush" kettle of the  
Public Library will be stirred for the  
last time tonight, when the directors  
will sit in session to make their final  
disposition of the matter that  
has engrossed literati and proletariat  
for more than a month, and which, be-  
cause of the frivolity of the charges  
made against the librarian by the sec-  
ond assistant, Miss Miller, has been a  
fetish unbecoming to the dignity of an  
institution for the dissemination of  
knowledge and culture.While no absolute forecast can be  
made as to the conduct of the library  
board, it is stated on good authority  
that the matter will be treated in a  
manner befitting its importance. Indi-  
vidual members of the directorate  
have expressed surprise that the  
library is to remain open, and in this  
expression of sentiment it is taken  
that Miss Jones, the librarian, will not  
be subjected to criticism. On the  
other hand, it is said that Miss Nora  
Miller, the second assistant librarian,  
will be reproved for making foolish  
charges.IMPROVEMENT SOCIETIES  
ARE TO COMBINE.WILL FORM TRUST FOR ADVICE OF  
CITY COUNCIL.Scattered Organizations in Divers  
Parts of the City Will Try to Accomplish More by Concerted Action—  
East, North, South and West.The "improvement societies," se-  
veral of which have sprung up in  
various parts of Los Angeles during  
the last three years, are about to do  
something which will probably have a  
great bearing on this city's future welfare.They are about to amalgamate. What  
one of them alone could not begin to do,  
what even several of them would  
probably fail in, their complete union  
will perhaps effect. A single society is  
regarded by the City Council, or a gas  
company or a street-railway corporation,  
as the voice of the people. All of them  
together will be respected as the "voice  
of the people."In the organization which will soon  
be completed, the Garvanza, Highland  
Park, South-West, Angelino Heights,  
Pico Heights and Vernon Improvement  
Associations will be the leading con-  
stituents. A committee, consisting of  
F. J. Stinson, Adelbert Hause, Carl G. Peck,  
W. Frank Poor, Sanford C. Wine,  
Melville Mudge, S. H. McClung and C.  
W. Schmidt.The work of these associations dur-  
ing their short existence has been  
concerned with the welfare of the  
people, and has been of great  
assistance. A committee, consisting of  
F. J. Stinson, Adelbert Hause, Carl G. Peck,  
W. Frank Poor, Sanford C. Wine,  
Melville Mudge, S. H. McClung and C.  
W. Schmidt.The work of these associations dur-  
ing their short existence has been  
concerned with the welfare of the  
people, and has been of great  
assistance. A committee, consisting of  
F. J. Stinson, Adelbert Hause, Carl G. Peck,  
W. Frank Poor, Sanford C. Wine,  
Melville Mudge, S. H. McClung and C.  
W. Schmidt.In the past year important con-  
cessions from the street-car people, whole  
of the new gas, sewer and water  
and many other works of public  
improvement owe their being directly  
to these societies. Their ranks number  
some of the most prominent men in the  
city—indeed, their active working  
for the improvement of the public  
persons more or less in the public  
gas, as for some reasons the conserva-  
tive citizen would rather see the whole  
town to ruin than rouse from his  
complacent inaction.A new phase of the joint union will  
be probably advanced to the work of the  
society in the future. It will be the  
probable political status, not in a partisan  
sense, but in a determined effort to  
keep municipal politics pure.  
The work of these associations  
bodies are enthusiastic in their praise  
of the new scheme. The plan of action  
seems to be for the formation of a gen-  
eral Executive Committee, to be selected  
from the members of the various  
societies, which will then confer with  
the Council or whatever other body of  
men it is desired to reach. Many  
would give the new organization the  
name of "Good Government League," or  
"Citizens' Union," or even, as one  
suggested, the "People's Protective  
Association."In accounting the work of the Ange-  
leno Heights Improvement Association,  
Fielding J. Stinson said yesterday:"This organization is responsible for  
our present street-car system up there,  
and for the transfer privileges. We  
have only been organized two years,  
and have been making great improvements  
in scattered, individual work, but we have  
accomplished a great deal for the  
improvement of the city in that time. It was  
our body which selected the site of the  
Belt Line franchise, and also the Temple-street  
outfit, a thing which has always been  
sorely needed."Whatever opinion may be held re-  
garding the "evolution" of man, there  
can be but one opinion concerning his  
classification. Regarding man's place  
among animal life forms, Dr. Ernst  
Haeckel, one of the greatest living  
naturalists, says: "Whatever part  
of the body we consider we find,  
upon the most exact examination,  
that man is more nearly related  
to the highest apes (members of the  
family Pongidae) than to the lower apes.  
It would therefore be unscientific  
to class man with the lower apes."  
Another great naturalist, Linnaeus,  
says: "Man is a structure, and  
whatever part of the body we consider we  
find, upon the most exact examination,  
that man is more nearly related  
to the highest apes (members of the  
family Pongidae) than to the lower apes.  
It would therefore be unscientific  
to class man with the lower apes."

## LININGS

To fashion a dress upon poor linings is as unwise as to build a house on a foundation of sand. Good linings add comfort, style and lasting qualities to your gown. The difference in cost is insignificant compared with these advantages and the satisfaction the slight difference in cost should not be considered. Look our new lines over, some of the late novelties are interesting.

Lusters In black and white  
polka dots and plain  
black satin stripes, white or  
black, a plain colored, highly mer-  
cerized fabric for drop skirts,  
waist and jacket linings.Saxon Silk Percaline A perfect imitation of silk  
and will wear—black only

Lustrals The most satisfying of all silk finished linings is shown in every wantable color, black or white. A perfect substitute for silk.

French Percalines, Anderson's Percalines  
French Sateens, Gilbert's Grand Duch-  
ess Batiste, Swiss Percalines, etc. All

Public Schools.Steps Taken to Do Away With  
Obsolete Text-books.State Normal Diplomas to Be  
Honored by the State  
University.Gov. Pardee's method of presiding  
over a meeting of a State board and  
rushing business to a conclusion is per-  
fectly delightful," said Prof. Edwin T.  
Pierce, president of the Los Angeles  
State Normal School, yesterday upon  
his return from a meeting of the State  
Board of Education held at Sacramento  
last Saturday.Prof. Pierce attended two important  
educational meetings while in the  
northern state, and he returned to Los Angeles  
brimming of enthusiasm."Educational matters in this State are  
booming," said the professor. "I have never attended a more satis-  
factory meeting of the State board than the last. The Governor is heartily in  
sympathy with the educational work of the  
State, and he announced that it is  
his intention to preside over every  
meeting of the State Board, a thing  
which not all former Governors have  
done, and he urged every member to  
make it his business to be present at  
all the meetings.The Governor is perfectly outspoken,  
and is willing everybody else to be just as  
frank. He keeps them waiting at a  
board meeting, and the result is  
no time is wasted. A great deal was  
accomplished at the meeting last Sat-  
urday.

NEW TEXT-BOOKS.

The most important business trans-  
acted was in relation to the new text-  
book law enacted at the last session of  
the Legislature. This law gives the  
State Board of Education power to  
buy, rent or employ in any way practi-  
cal, the copyrights or plates of the  
best text-books extant, and have them  
published by the State Printing Office  
or by the State Normal Schools or  
other schools of the State at cost. Heretofore  
all the text-books used in the State  
have to be written or compiled, as well  
as printed, at the State, and our  
books were deprived of the use of  
many text-books superior to those of  
our own production.The new law provides for a board of  
text-book commissioners, consisting of  
the Governor, the State Superintendent  
and other members to be selected by  
the State Board of Education.The State board has named Dr.  
Elmer E. Brown, professor of pedagogy  
in the State University, as the third  
member of the commission, with a  
secretary and who has headquarters in  
Sacramento. It is the duty of the  
board to examine into the merits of  
text-books, employ experts, if necessary,  
to read and cut out what is not  
adapted to the uses of the schools  
of the State, and to recommend to the  
State Board of Education such books as  
they think should be adopted.The new law is under the new  
law is McMaster's School History. This is a standard work far su-  
perior to the history now used by  
the school.Seldom such a scene in a piano  
store as the writer viewed at the ware-  
house of the Geo. J. Birkel Co., at  
345-347 South Spring street. Even if  
you're not thinking of purchasing a  
piano it will pay you to go down and  
get posted on this unparalleled oppor-  
tunity.If you should buy an instrument  
now you will at least have the satis-  
faction of learning the purchasing  
power of little money; and remember  
this piano club is being formed by a  
Steinway house.Quite a number of discerning people  
have already taken advantage of  
the liberal prices and terms and en-  
rolled their names as members; in  
fact, interest in the piano club is well-  
nigh phenomenal.It seems to us the greatest  
compliment a piano dealer could expect  
would be the appreciation of his spe-  
cial efforts.The hearty response of the musically  
intelligent people of Los Angeles ac-  
corded the Piano Club announcement  
of the Geo. J. Birkel Co. speaks  
volumes for the business methods of  
this progressive firm.Pianos offered in the "Club Sale" are  
the celebrated Sterling and Hunting-  
ton makes—known from the Atlantic  
to the Pacific and noted for their  
artistic musical qualities and all-around  
excellence.But that isn't all; prices were never  
so low—and won't likely be again.Think of buying a \$400 Sterling Piano  
for \$255—or a \$350 Huntingdon for  
\$225! Terms—\$10.00 down, balance  
\$2.00 a week.GEO. J. BIRKEL CO.,  
345-347 S. Spring St.If you will bear in mind that this advertisement is  
intended for yourself, and that every statement is  
carefully made and fully true, then we are confident  
that you will come here when you need anything in  
the house-furnishing line.You may buy for cash or credit—suit yourself.  
Have no hesitation in asking for a full explanation  
of our famous purchase plan. Many of our best  
customers are business men. A small store selling  
goods on credit must ask a great profit. With our  
immense stock we are satisfied to ask moderate  
prices and give our patrons the privilege of paying  
for goods in sums convenient for themselves. Perhaps  
the strongest proof that our credit system is by far  
the most satisfactory is the growth of this business.  
Perhaps you wish only a stove, or you may need  
enough furniture for a fifty room house. It makes  
no difference—The Great Credit House will supply  
you on credit.THE GREAT CREDIT HOUSE

## CONVENTION HALL.

Committees of Citizens Selected to  
Construct and Manage It, Provided  
Necessary Bonds are Voted.By resolution of the Council, five  
prominent citizens were selected yes-  
terday to construct and manage the  
proposed convention hall building, in  
the event that the people vote the  
necessary bonds for its erection. The  
selection of the commissioners was  
made in a secret session, during the  
noon recess, and much feeling was  
evoked. Todd in particular was op-  
posed to handing over all the fac-  
ilities of the Council to the civic  
associations," and he left the caucus white  
with rage. Todd, Kern and McAleer  
voted against the resolution, but the  
other six votes were in favor of carry-  
ing it through. Todd declared in open  
Council that he did not care to be a  
honesty, and that the Council might  
as well appoint a commission to con-  
struct the outfit sewer. The resolu-  
tion reads as follows:"In pursuance of the act of the Leg-  
islature of this State recently passed,  
which authorizes cities and towns to  
construct and maintain convention  
and other halls for public pur-  
poses, and to issue bonds for the  
same, for the sum of \$100,000, to  
be used for the payment therefore, it  
is hereby resolved by the Common  
Council of the city of Los Angeles that  
the following citizens and taxpayers of  
the city of Los Angeles, to-wit: James  
J. Stinson, W. W. Kern, Charles H.  
Todd, O. T. Johnson, Charles Silent, be,  
and they are hereby appointed, a com-  
mittee with power and authority as  
the agent of this Council, in con-  
nection with the Board of Com-  
missioners of the City, to select a site for  
the location of the convention or public  
hall of this city, to decide and deter-  
mine upon the plan and the cost of  
the building and equipment to em-  
ploy the necessary architect for its  
construction and to have the man-  
agement of said building when completed,  
but subject always to the control and  
supervision of this Council. Said com-  
mission not to have or receive any  
compensation, and the expenses of  
power and duties to be hereafter more  
particularly defined by the order of  
this Council, or by ordinance."

## BREAK GOING TO PIECES.

Storm water caused a bad break in  
the outfall sewer near Western avenue last  
Tuesday night, and the superintend-  
ent, without equipment to use in such  
emergencies, has been entirely unable  
to make any headway in repairing the  
broken pipe. Three of the alkaline  
empty tanks gave way, and an entire  
section of the main pipe blew out. A  
forty feet in diameter and fifteen  
feet deep was caused by the spouting  
waters, which flooded the surrounding  
farms, washed out acres of pota-  
toes, damaged the right of way of the  
Redwood electric railway line, and  
eventually found its way into the  
caverns.Superintendent Tilden with difficulty  
secured an engine to pump out the  
section of pipe so that the damage  
could be repaired. Owing to the main  
cavities in the break, the engine  
could not be brought near enough to  
the spot to be operated, and sections  
of hose had to be secured and a man  
held. With the water out of the way,  
the pipe line could not be laid, and  
owing to hundreds of loads of filthy  
mire at the bottom of the great hole,  
it is customary in the case of smaller  
breaks to bail this mud out with buckets,  
but this is an almost impossible  
task in the present case.Work on the break was continued all  
day Sunday, and far into the night.In the meantime the water had been  
cut out at the first section above, and  
was flooding the ditches and streets.  
Owing to the fact that the water did  
not absorb the flow, and it has covered  
an immense district. Yesterday morning  
the lakes left by the storm and  
augmented by the overflow from the  
west were still there. In leaving  
the water was found necessary to swim  
the horses a short distance.It will cost the city upward of \$20,000  
to repair the break in the pipe, and  
there is no telling what indignant citi-  
zens and taxpayers will demand in the  
way of damages. Prof. William  
Fredericks, advertising agent of  
the Burlington, returned to his work  
in Chicago last night, after a week  
or two of sightseeing in California.With citizens in a fever of anger, the aver-  
age citizen is in a fever of fear that  
bonds for the construction of a  
new sewer have been voted.

## MILLIONAIRE'S HOLIDAY.

H. C. Frick Enjoying Himself in  
Southern California—Steel Magnate  
Looks for a Continuance of Prosperity.  
Henry C. Frick, the multi-millionaire  
steel manufacturer of Pittsburgh, Pa.,  
joined his family at the Van Nuys  
Hotel yesterday. Mrs. Frick and daughter  
have been in Southern California for the last six weeks. Mr. Frick and a party of friends, including Joseph  
R. Woodwell and wife, and Charles A.  
Palmer of Pittsburgh, arrived yester-  
day for a short vacation.Mr. Frick and Andrew Carnegie were  
associated for many years in the steel  
business and the former is regarded  
as one of the ablest captains of industry  
in the country. He is a good-looking,  
affable gentleman, with a sandy beard  
tinged with gray, but looking in the  
prime of vigor of life, in spite of the  
severe fatality that descended upon him  
by a murderous anarchist during the  
great Homestead strike.There is nothing snobbish about Mr.  
Frick, notwithstanding his great  
wealth. In appearance and address  
he is the typical American business man  
who has worked his way from an  
humble beginning to the top of the ladder  
of success in industry and enter-  
prise. A Times reporter said last night:"No, this is not my first visit to Los  
Angeles. I was here eleven years ago,  
and I am impressed with the remarkable  
growth your city has made since then.  
You have a great and enterprising  
town and there undoubtedly is a  
great future in store for it."The steel business is excellent, and  
nearly all other lines of trade are flour-  
ishing. The outlook for the future is very good, and there is no reason  
why the present era of prosperity  
should not continue for some time to  
come.Mr. Frick is a close friend of Atty.  
G. Knob, and he has a high opinion  
of that gentleman's ability, and warm  
words of praise for the manner in  
which he has been conducting his office.  
Mr. Frick and party will leave for  
Santa Barbara this morning, and will  
journey thence to San Mateo and San  
Francisco. He is out for vacation  
and a good time, and says he is having  
it, in spite of the wet weather which  
Los Angeles is just now experiencing.

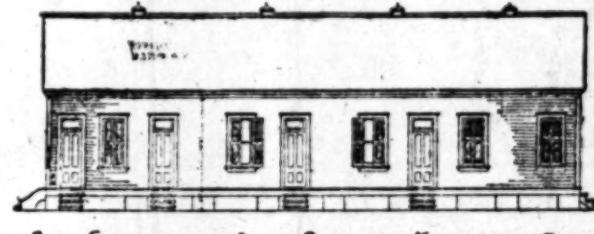

## MATTINGLY DISTILLERY BURNS.

LOUISVILLE, March 29.—The J. G.  
Matttingly distillery at Fortieth and  
High streets in this city, was destroyed  
by fire late this afternoon, causing a  
loss of \$50,000.

## Group of New Buildings for Isolation Hospital.

The accompanying sketches are  
drawings of the proposed new isolation  
hospital. This evening the City Board  
of Health will meet and discuss the  
plans and specifications, and the board  
will then recommend to the Council  
that an appropriation of \$21,000 be  
made to cover the cost of erection.  
The estimated cost of equipment would not  
exceed \$500.It is proposed to build the new hospital  
on the site of the old posthouse, as the  
structure is popularly known—  
Boynton avenue and Reservoir  
street, just west of the old Jewish  
Cemetery.The city's need of an adequate and  
modern isolation hospital has been a  
subject of agitation for years. Recently  
a Council committee, consisting of  
Councilmen Notzinger, Parish and  
McAfee, was appointed to confer with  
the Board of Health. The result thus  
far is the drawing up of plans which  
will be adopted, perhaps, with slight  
alterations, at tonight's meeting. The  
estimated cost of the hospital is \$21,000,  
and the estimated cost of equipment would  
not exceed \$500.The plans provide for the following  
buildings: (A) Administration building,  
to contain offices, to cost \$1,500; (B)  
ambulance house, to cost \$1,500; (C)  
three isolation huts, for

FRONT ELEVATION OF HUT.

SIDE ELEVATION OF DINING-ROOMS AND KITCHEN.

FRONT ELEVATION OF ADMINISTRATIVE BLDG.

quarting doubtful cases, to cost \$600;  
(C and O) special kitchen and dining-  
room and special quarters for attend-  
ant nurses and cook, to care for  
patients, to cost \$1,000; (D) ward buildings,  
other than nurses, to cost \$700; (E and C) private  
ward buildings, to cost \$500; (D and D)  
common ward building, to cost \$300;  
(H) laundry, to cost \$200; (I) dormitory,  
to cost \$200; (F and E) nurses'<br

## THE PUBLIC SERVICE—IN THE COURTS AND OFFICES.

## SUMMARY OF THE DAY.

Henry E. Huntington announced through Councilman Nofziger yesterday that the University cars will run to Garvanza, beginning today, thus giving the First Warders transfer privilege.

A rock pile and ten more detectives were decided upon by the Council yesterday.

Councilmen were angry at merchants yesterday, and sent back to the secretary a communication.

The official Council proceedings, published by authority, will be found elsewhere on this page.

Two versions of the new poolroom ordinance were presented to the supervisors yesterday.

A number of hot fights over saloon licenses were fought before the supervisors yesterday.

Gen. H. A. Piero was appointed Township Justice by the Supervisors yesterday.

An application for a wharf franchise at San Pedro raised a rumpus.

## AT THE CITY HALL.

## FIRST WARDERS GET TRANSFER CONCESSION.

## CARS ON UNIVERSITY LINE WILL RUN TO GARVANZA.

Hand of Huntington Forced by the Citizens of the East Side—Discussion of Blanket Franchise—Sixth-street Franchise to Be Advertised—More Detectives.

First Ward residents are jubilant. Their long-cherished hope of transfers is to be realized at last. The announcement was made in the Council late yesterday afternoon. It was Councilman Nofziger who spoke.

"People in the First Ward have maintained that I have no disposition to assist them in their fight for better street-railway transportation," he began. "At this time I wish to announce that the application of the Los Angeles Traction Company for a franchise through the First Ward has been laid over one week without prejudice.

"I have seen H. E. Huntington regarding the situation in Highland Park and Garvanza, and I am authorized to announce that I am going to-morrow morning the University car line of the Los Angeles Railway Company will run to the northern city limits. Mr. Huntington has promised me that this will be done unless the company is restrained in some manner."

Councilman McAleer at once telephoned the result to the citizens of the First Ward, who were overjoyed at the outcome of their fight, the more so as Mr. Huntington and his representatives had at first flatly refused to consider such a course.

It is very evident to the careful observer that the Huntington syndicate is greatly worried over the filing of the blanket franchise offering 3-cent fares. It is given out from this source that the Southern Pacific Railway Company is backing the big application in order to retaliate against the Pacific Electric Railway.

The Pasadena-Los Angeles Railway Company has utterly failed to give reasonable service. Its patrons are forced to stand in nearly every car, between the hours of 7 to 9 o'clock, and 5 to 6 o'clock p.m. It is often difficult to find standing room.

The Pasadena and Los Angeles Railway Company has for years, and does at the present time, refuse its patrons transfers to any other lines in the city. The Los Angeles Traction Company would be obliged to grant such privileges to its patrons over its own lines.

The Pasadena and Los Angeles Railway Company's line, traversing that district and an additional line from the city to the mountains, its company's tracks would afford accommodation to those living at inconvenient distances from the present line.

The Traction Company proposes a very direct line from the center of the city to the district mentioned, while the Pasadena-Los Angeles Railway Company's line carries its passengers over an exceedingly circuitous route.

To the districts of your petitioners (which furnish their portions of city taxes) you have given the public park, no water supply, the eleven street cars, no fire-engine houses, no sewers and few street lights, and if this prayer is granted, it will be without expense to the city, and we ask you a careful consideration of it.

If his information is correct, and William M. Garland says that his back-works are to be given to the Pacific Railroad Company left this room.

No important disclosures regarding the proposed franchise were made yesterday, although there was a somewhat warm argument about it in the Council. The delinquent members of the Council, which should be inserted in the notice of sale of a franchise on West Sixth street, as asked by the Los Angeles Railway Company. Parish waited to set the limit at June 1.

Brown said he thought all franchise matters should go over until the Council had time to investigate the new franchise application.

"I noticed a little while ago that the Pacific Electric and the Pacific Railroad Company left this room when Garland did," declared Nofziger, "and I know how bitterly the steam road opposes the expansion of the steel roads. I believe that for every one cent per mile that the railroads gain by 2-cent fares will cost this section thousands of dollars. The electric lines will soon begin to handle freight and the Southern Pacific merely to compete with Mr. Huntington and his plans, and that is why the application was made. I believe the term of the Sixth-street franchise should be fixed at thirty-seven years, and that it should be sold at once. The public will be compelled to buy the Traction or the Los Angeles Railway Company can buy in the franchise."

President Bowen left the chair and replied to Nofziger substantially as follows:

"The member from the Ninth has intimated that the Southern Pacific is behind this new franchise application. As far as my information goes, that is not correct. I believe the interests of the city demand that the Council investigate the matter and ascertain if it is bona fide. This Sixth-street line is one key to the situation. It is the only avenue open through that section of the city. If it is run to the Traction line, there might be some competition, but I do not think that will be sold at once. The public will be compelled to buy the Traction or the Los Angeles Railway Company can buy in the franchise."

## San Bernardino, Riverside and Orange Counties.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

## SAN BERNARDINO.

BY THE ASSOCIATED PRESS—P.M.

SAN BERNARDINO, March 30.—

Capt. F. L. Clark dead.

One of the best-known men in literary and military circles in California, died here this evening of lung disease, aged 60 years.

Capt. Clark served with the Ninety-ninth New York Volunteers through the War of the Rebellion, and afterward assisted in deep-sea explorations among the West Indies. Later he was transferred to Hawaii, became confidential advisor to King Kalakaua.

Returning to the United States after the annexation of the islands, he was employed in the government forestry service, which brought him to Highland. Capt. Clark did great work in magazine writing, mostly along scientific lines. So far friends have been unable to locate the members of his family, although, up to a short time ago, they resided at Fresno.

## REDLANDS.

SHOT AND DIDN'T KNOW IT.

REDLANDS, March 30.—James Haskins accidentally shot himself while handling a pistol. He says he did not realize that anything was the matter until two hours after the mishap. A physician was then called and it was found by use of the X-ray that the bullet had lodged in the right thigh. He was removed to his home on Brookside avenue and is suffering considerably.

## THUS AND SO.

This evening Miss Helen M. Brooks lectured on "Tom Moore" at the old First Methodist Church building. Musical selections composed by Moore were rendered by Mrs. Ralph Rohrer, Mrs. Wheeler, Mr. Fowler and Mr. Ferguson.

The services for Easter are being arranged by the various churches and Sunday-schools. It is expected that there will be a more elaborate observance than ever held.

Shops have felt the night and today there has been a heavy rain.

Capt. Hobson is to arrive in Redlands Friday and lecture in the evening.

Already the exodus of tourists has begun, and as a result there is a great scarcity of sleeping-car accommodations. Many have discovered that they cannot get away from here until after April 23.

One of the western Vice-Presidential possibilities mentioned in the dispatches from Washington, D. C., was

Judge B. S. Grosscup of Tacoma, Wash., who has been visiting his sister, Mrs. E. Lehman.

One hundred and fifty persons have joined the First Methodist Church on probation, as a result of the recent Potter revival meetings.

Since "A crust is better than no bread," a small advertisement in The Times brings in more business than no advertisement at all. Telephone your wants to Red 125, and our Redlands agency will take your ad. and send it to the main office.

## COLTON.

PRETTY HOME BURNED.

COLTON, March 30.—Earl Van Leuven's residence, situated on the terrace, and one of the prettiest homes in the town, was totally destroyed by fire, with most of its contents, about noon.

## SANTA ANA.

EARLY RESIDENT DEAD.

SANTA ANA, March 30.—P. S. Rich, a long-time resident of the Newhope district, died at his home on West Third street yesterday at the age of 72 years. The funeral will be held tomorrow afternoon at 2:45 at the Mills &amp; Whinbiger parlors and the body will be shipped to the old home in Payette, Idaho, for interment. Deceased was a prominent resident of the district, where he made his home and had a wide circle of friends here.

## RIVERSIDE.

JAP BOUND OVER.

RIVERSIDE, March 30.—Otega Tonaka, the Japanese who made a vicious attack with a knife on a Japanese Whiski, Friday night, was this afternoon bound over for trial by the Superior Court for assault with a deadly weapon, with intent to murder. Bonds were fixed at \$500. The hearing took place before Justice Stephenson, and the court had an unhappy time, trying to get at the gist of the trouble, that is, what was the reason. Whiski face still resembled a raw hamburger steak. Tonaka alleges that Whiski started the fight, and that he used the knife in self-defense.

## CHAMBER OF COMMERCE.

The newly-elected board of directors of the Riverside Chamber of Commerce met this afternoon and elected as president, H. C. Chapman; vice-president, C. E. Rumsey; secretary, H. M. Streeter; treasurer, G. E. Bittner. The Committee on Bylaws and Constitution is composed of William Collier, George Frost, W. E. Pedler, Frank W. Clegg, and W. H. Clegg. The Committee on Land and Irrigation exhibits, ways and means, statistics, legislation, membership, parks and streets and visitors, will be appointed within a few days. A permanent office will be established at once in the main-street wing of the new Glenwood.

Tustin, were married Saturday evening.

Ex-Representative R. J. Waters of Los Angeles inspected Sand Island at Newport Beach yesterday. He and a party of Tustin friends expect to build cottages and a community boarding house there this summer.

Since "A crust is better than no bread," a small advertisement in The Times brings in more business than no advertisement at all. Telephone your wants to Red 125, and our Redlands agency will take your ad. and send it to the main office.

## FULLERTON.

AN ORANGE RECORD.

FULLERTON, March 30.—A. V. Smith has made one of the best orange sales so far reported in Southern California this season. From only three acres of land he disposed of over \$2200 worth of oranges. The price is net to the grower, and is one of the record-breaking sales in the history of the county.

## RIVERSIDE.

JAP BOUND OVER.

RIVERSIDE, March 30.—Otega Tonaka, the Japanese who made a vicious attack with a knife on a Japanese Whiski, Friday night, was this afternoon bound over for trial by the Superior Court for assault with a deadly weapon, with intent to murder. Bonds were fixed at \$500. The hearing took place before Justice Stephenson, and the court had an unhappy time, trying to get at the gist of the trouble, that is, what was the reason. Whiski face still resembled a raw hamburger steak. Tonaka alleges that Whiski started the fight, and that he used the knife in self-defense.

## Tustin.

Here is a letter that has just come to our attention. It will interest people suffering from bronchial troubles. It is from N. H. and reads as follows:

"I have suffered with bronchial troubles for over a year; tried two doctors and have taken three or four kinds of medicine, none of which did me any good. At last I could not stand it any longer. I could not speak. Then I heard of Vinol. After taking three bottles of it my voice has perfectly returned to me. I can see that in a short time I will be all right. When I began to take it I was very weak, but it has built me up and given me a good appetite."

This is what Vinol always does.

This is what Vinol accomplishes its mission of doing good.

Vinol, as we wish every one to know, owes its power of accomplishing the cures that it effects to the fact that it contains the most wonderful medicinal elements known to science for the cure of all wasting diseases, as well as being in itself a marvelous tonic. These medicinal properties exist and have heretofore been found only in cod-liver oil. Vinol contains these elements. For by a active process the necessary curative properties of the cod-liver oil have been separated from the fat and grease which formerly made cod-liver oil preparations so obnoxious.

As long as Vinol does not contain any of the vile smelling oil, and is prepared by combining the sought-after properties with a delicate table wine, it is a most delicious and palatable preparation.

As long as Vinol does not contain any of the vile smelling oil, and is prepared by combining the sought-after properties with a delicate table wine, it is a most delicious and palatable preparation.

We know of what we speak when we recommend Vinol, and because we do know that Vinol does all we claim for it, we unhesitatingly endorse it, and guarantee at any time to refund the money paid for the remedy if you are not satisfied it will do all we claim for it.

## TO PUNISH CRUELTY.

Friends of Animals Take Up Fight

To Prevent Torturing and Suffering of

Creatures in Transit.

Encouraged by its success in obtaining two convictions last week, the Los Angeles Miss Stevenson of the Prevention of Cruelty to Animals has taken up with renewed vigor a campaign for more humane methods in transporting animals to market or to slaughter.

Arrangements are to be made under the State law of 1897 for a butcher who subjects any domestic animal to unnecessary torture, and his prosecution will be pushed by the organization. If the law is not strong enough, the society may call a meeting to agitate the question and induce the next Legislature to enact more stringent measures for the protection of dumb brutes.

The most commonly practiced is that of carrying animals for a long distance in wagons, and the greatest sufferers are calves and sheep.

Arrests made last week were of drivers who forced animals to slaughter. The feet of the animals were tightly tied and the creatures were piled one above the other in the beds of the wagons smothering masses of flesh.

Hitherto there has been no regard paid to the welfare of animals. In some cases animals have been carried a distance of fifteen miles, unable to move a muscle, and in many instances hardly able to breathe. Many dying animals, it is said, have been slaughtered, and the flesh of such is not fit for food.

The proper method for transporting the creatures is said to be in crates, which are well and expensively, regardless of any suffering that may be inflicted. The simplest method has been adopted of throwing the animals into wagons ten or a dozen in a lot, with their legs tied, so tightly massed as to make it impossible for them to obtain air.

The State law makes it a misdemeanor for any person to carry or cause to be carried in a vehicle or otherwise any animal in a cruel or inhuman manner, or to expose the animal to be subjected to unnecessary torture, cruelty or suffering of any kind. When any person is taken into custody for infraction of the law, it is provided that the officer shall take charge of the vehicle and its contents and deposit the same in a safe place of custody, and that any expense incurred thereby shall be a lien on the property to be paid before the same may be recovered.

Officers of the society say this law will be enforced strictly in the future, and that hope thereby to check some of the cruelty now practiced by unthinking or unfeeling persons.

Fines imposed in two cases last week were \$20 and \$25, respectively, despite a hard fight made by the butchers.

## KERN COUNTY.

STOLE SHAFTER'S SADDLE.

BY THE ASSOCIATED PRESS—A.M.

BAKERSFIELD, March 30.—A special to the Californian from Exeter, Tulare county, says that a man named Millerson was arrested there yesterday for the theft of a bridle and saddle belonging to Gen. Shafter, and stolen a few weeks ago from the ranch of the general's son-in-law, Capt. McKittrick, in this county.

When an officer from Kern county arrived to take charge of the prisoner, the constable advised him that the prisoner had escaped, after firing several shots at the constable. The stolen saddle and bridle were recovered and fully identified. A reward of \$100 was offered by Capt. McKittrick for the recovery of the property, and the capture of the thief. The constable at Exeter telephoned to Bakersfield immediately after the arrest for instructions, and then stated that the man had offered him \$50 to release him.

No one has been found who is ready to impute a wrong motive to the unfortunate man. A great number of his personal effects, including a watch and a diamond ring, were taken.

Planned to be a bright young man about 18 years of age, he has an estimable wife, who is a great favorite among her acquaintances, and they have several small children. They came here from Redlands three months ago to take charge of the Grand View Farm, which, it is said, both have proved most acceptable to the people of the congregation.

No one has been found who is ready to impute a wrong motive to the unfortunate man. A great number of his personal effects, including a watch and a diamond ring, were taken.

Officers of the society say this law will be enforced strictly in the future, and that hope thereby to check some of the cruelty now practiced by unthinking or unfeeling persons.

Fines imposed in two cases last week were \$20 and \$25, respectively, despite a hard fight made by the butchers.

## BOVARD SAYS HUSTLE.

Wants the Methodist Preachers to

Make That General Conference Fund Solid.

It would appear from the remarks of Presiding Elder Bovard that the Methodist brethren are not yet "out of the woods" on the general conference project. At the Methodist preachers' meeting yesterday Dr. Bovard reminded them that the promises received prior to the meeting of the committee in New York will not be satisfactory to the conference, and that the same must be in May and close the matter up. He said plainly that more than promises will be demanded, and urged the preachers to make it plain to their congregations that the conference corporation bond plan, by which the bonds will be placed in bank, secured by responsible indorsers, so that the \$10,000 pledged by the churches will be available to the conference in General Assembly early in January, 1904. The original \$10,000 is fully guaranteed by the Los Angeles friend indeed—the Chamber of Commerce.

Should the conference find the conditions unsatisfactory for bringing the conference here, they are entitled to take it elsewhere, if in their judgment it is best to do so, but if the imposed conditions are complied with they are shorn of that power. The importance of that point raised by Dr. Bovard must therefore be apparent to all.

## TO CURE A COUGH IN ONE DAY

Use Adams' Irish Moss Cough Balsam.

Prescribed by the best physicians for Coughs, Colds, Hoarseness, Bronchitis, Throat, Throat Troubles, Etc., Etc. At all drugstores.

# Second Day of Spring and Easter Opening

## The Second Opening Day.

DESPITE the rain of yesterday which prevented as large crowds as would have been in attendance, the brilliancy of our Spring and Easter Opening was but little marred; and all day long crowds of visitors ranged through the various departments and viewed the choice lines of merchandise and admired the store decorations—the beauty of which has never been equalled by any other store on the coast. The only part of our program for your entertainment that was not carried out was the musical concert; but the entire program will be rendered this afternoon, so those who were deterred by the weather will have a chance to enjoy all of the opening features; and those who were here yesterday are most cordially invited to come again today. The additional day has also given us the opportunity of better arranging some of the exhibits; and the masses of cut flowers will be replaced by fresher ones and the entire decorations will command your admiration. In order that you may combine business with pleasure, each department has one or more specially priced lines of merchandise to offer, at prices much under regular. It is an Opening worth coming miles to see; so come, and bring your friends with you.

**EXTRA SPECIAL**—Because of rain Monday all special merchandise values advertised in Sunday's Times will be in effect today.

### Mennen's Talcum Powder at 7c.

The genuine brand best known throughout the English speaking world. It is in sprinkle top cans and sells at all drug stores at 25c. For today only with limit of one and no telephone orders, price.....

### Opening Sale of Wash Goods.

Though colors are always in favor, white goods will be more prominently worn this season than at any time during the past decade. Not even the largest houses can possibly carry every one of the new weaves, but a popular house like Hamburger's could naturally be expected to show the weaves which will be the most popular and at prices commensurate with quality.

Mattocks Embroidered Mulls—sheer gray, tan or white with green and black flowers. These are new for the first time and are priced at.....	35c
Belfant Linen Rep. Suitings—the to-be-popular textile for outing costumes. They are in navy tan, blue and white, and green mixtures. They wash nicely, wear well and reasonably priced per yard.....	25c
